! Q&A will be retiring in December 2026.

Remove Q&A

Ask a question about your data

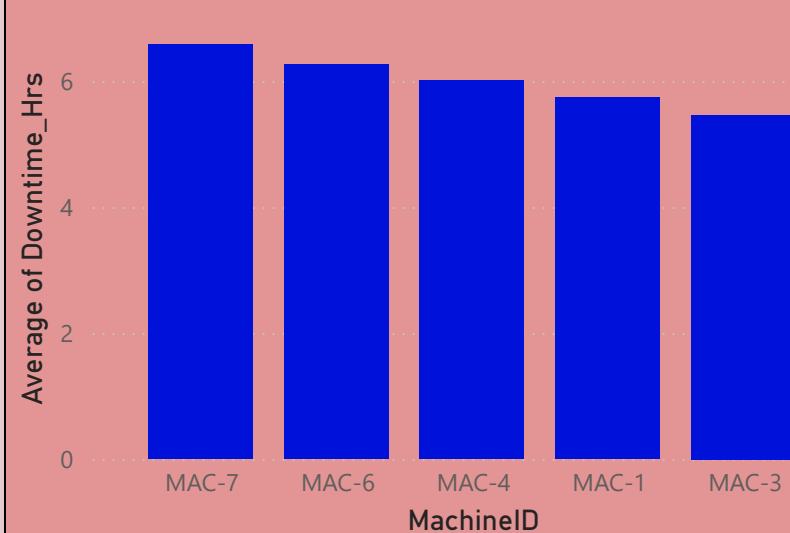

Try one of these to get started

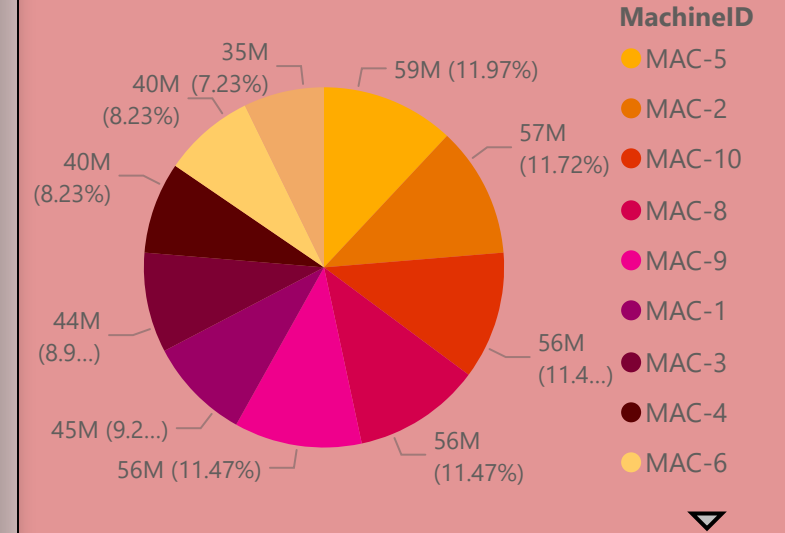

what is the count of BatchID % difference from sum of DefectRate by country

top machine ID by count of BatchID % difference from sum of DefectRate

Bottom 5 Downtime_Hrs by MachineID

Total Production by MachineID

Conclusion :-

- Total products: 489 Million
- Defect Rate: 2.52%
- Defective Products : 12.3 Million
- Down Time: 2.37K
- Quality(Good)Products:476.7 Million Products are good

The Overall manufacturing Performance is GOOD because production is high and defect rate is low, though some machines need maintenance to reduce
